- c) Fast, its challenging, I have to work to keep up.
- d) Just way too fast, can't keep up no matter how hard I try.

2. Course Content. My goal is to have you **study around 3 hours outside class**, but you think you study:

- a) 0-1 hours, the course is way too easy for me.
- b) 1-2 hours, I don't have to work very hard to keep up with lectures and homework.
- c) 2-3 hours, I work regularly on the material in the class.
- d) I spend more than 3 hours a week studying or doing work for this class

3. Homework

- a) We don't have enough homework to do.
- b) We have about the right amount of homework (this includes: I can do it but its a challenge).

- b) I feel that you are approachable and I can ask you questions both in class and office hours.
- c) I feel that I can ask you questions but I don't always understand your answers.
- d) There are some things going on in class, that you are not aware about.

5. Exam

- a) I feel that the exam was too hard and didn't reflect the material we are learning in class or that appeared on the practice exam.
- b) I think the exam was fair in the level of difficulty and similar to the practice exam.
- c) I think the exam was too easy and should have been more challenging.

6. Group Work

- a) I don't like working with other people and don't benefit at all from group work.
- b) I think its okay to do group work but I'm not sure how much it benefits me.
- c) I enjoy doing group work, because it helps me understand the material better, and helps me meet other class mates with whom I can work together on homework with or just ask general math questions.
- d) I benefit a lot from group work, because sometimes hearing an explanation for how to do problems, especially ones that are different from techniques taught in class really helps me in the learning process.

7. Other Comments

If there is something that I have not addressed on this evaluation, but you would like to comment on feel free to do so.

8. TRUE or FALSE. I have been following our schedule online and use the recommended resources to prepare for lecture material. If your answer is False, please explain why you haven't been doing so.

9. Overall I rate this class as:

- a) 0-3
- b) 4
- c) 5
- d) 6
- e) 7

1 being horrible and 7 being great.

(Think of this as your chance to grade the class with 7 being A, 6 B, 5 C, 4 D and 0-3 F.)
