Who Does The Nath? On the Diversity and Demographics of the Mathematics Community

ICIAM || July 17, 2019 || Valencia, Spain

- Pose some questions about how "We" define the "Mathematics Community"
- Advocate for the idea that mathematics is a human endeavor
- Provide demographic details about the "United States Mathematics Community" which demonstrate the underrepresentation of certain groups
- Discuss some implications of this underrepresentation

## What Is The "Mathematics Community?

## The Mathematics Community: Some Definitions

1. The set of individuals who are defined to be mathematicians.
2. The set of individuals who identify themselves as members of the mathematics community.
3. The set of individuals who belong to one or more professional mathematics organizations.
4. The set of individuals who teach, study, research, do, learn, or are interested in, mathematics.

# Def. 3: Membership in Mathematical Organizations 

## Membership Demographics of SIAM

| All Membership (Non-Student) | Number | Percentage |
| :--- | :--- | :--- |
| Male | 6446 | 78.70 |
| Female | 1171 | 14.30 |
| Unanswered | 569 | 6.95 |
| Regular Membership (U.S. Only) | Number | Percentage |
| Male | 6432 | 69.95 |
| Female | 1788 | 19.45 |
| Unanswered | 961 | 10.45 |
| Regular Membership (Non U.S.) | Number | Percentage |
| Male | 3580 | 74.37 |
| Female | 685 | 14.23 |
| Unanswered | 544 | 11.30 |

## What Does A (U.S.) Mathematician Look Like?

# (Some) <br> Demographics of the United States 

Race and Ethnicity in the U.S.
Categories (Race and Ethnicity) Percentage
White ..... 75.7
Black or African-American ..... 13.9
American Indian and Alaska ..... 1.7
Native

Asian

Native Hawaiian and Other 0.4 Pacific Islander
6.3 Hispanic or Latino (any race)
17.6

## Some other race

Gender in the U.S.
Categories (Total Population) Percentage
Male
49.2
Female
50.8
Categories (Voting Population) Percentage
Male48.4
Female51.6

## Age Distribution in the U.S.

 16\%
< 55 to 910 to 15 to 20 to 25 to 35 to 45 to 55 to 60 to 65 to 75 to 85+ $\begin{array}{llllllllll}14 & 19 & 24 & 34 & 44 & 54 & 59 & 64 & 74 & 84\end{array}$

## (Some) <br> Demographics of the Mathematics Community

## Mathematics Majors: Gender

## PERCENTAGE OF FEMALE UNDERGRADUATE MATHEMATICS MAJORS

1994-1995
1999-2000
2004-2005
2009-2010
2014-2015

## Mathematics* Degrees: Race \& Ethnicity

## Mathematics Ph.D. Recipients: Gender

## Mathematics Faculty Demographics: Age (Universities)

FIGURE F.4.1 Percentage of tenured and tenure-eligible faculty in doctoral mathematics departments in various age groups in fall 2015.

## Mathematics Faculty Demographics: Age (4-year colleges)

FIGURE F.4.3 Percentage of tenured and tenure-eligible faculty in bachelorslevel mathematics departments belonging to various age groups in fall 2015.

## Mathematics Faculty Demographics: Race, Ethnicity \& Gender by Department Type

|  | Percentage of Full-time Faculty |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Asian <br> \% | Black, not Hispanic \% | Mexican American/ Puerto Rican/ other Hispanic \% | White, not Hispanic \% | AIAN or NHPI ${ }^{1}$ \% | Unknown \% |
| PhD Mathematics Departments All full-time men All full-time women | $\begin{gathered} 15 \\ 5 \\ \hline \end{gathered}$ | $\begin{aligned} & 1 \\ & 0 \\ & \hline \end{aligned}$ | $\begin{aligned} & 3 \\ & 1 \\ & \hline \end{aligned}$ | $\begin{aligned} & 55 \\ & 16 \\ & \hline \end{aligned}$ | $\begin{aligned} & 0 \\ & 0 \\ & \hline \end{aligned}$ | $\begin{aligned} & 2 \\ & 1 \\ & \hline \end{aligned}$ |
| MA Mathematics Departments All full-time men All full-time women | $\begin{gathered} 11 \\ 6 \end{gathered}$ | $\begin{aligned} & 2 \\ & 1 \end{aligned}$ | $\begin{aligned} & 3 \\ & 1 \end{aligned}$ | $\begin{aligned} & 46 \\ & 26 \end{aligned}$ | $\begin{aligned} & 0 \\ & 0 \end{aligned}$ | $\begin{aligned} & 2 \\ & 1 \end{aligned}$ |
| BA Mathematics Departments All full-time men All full-time women | $\begin{aligned} & 6 \\ & 4 \end{aligned}$ | $\begin{aligned} & 2 \\ & 1 \\ & \hline \end{aligned}$ | $\begin{aligned} & 1 \\ & 1 \\ & \hline \end{aligned}$ | $\begin{aligned} & 53 \\ & 30 \\ & \hline \end{aligned}$ | $\begin{aligned} & 0 \\ & 0 \\ & \hline \end{aligned}$ | $\begin{aligned} & 2 \\ & 1 \\ & \hline \end{aligned}$ |
| All Statistics Departments All full-time men All full-time women | $\begin{aligned} & 22 \\ & 11 \end{aligned}$ | $\begin{aligned} & 1 \\ & 0 \end{aligned}$ | $\begin{aligned} & 2 \\ & 1 \end{aligned}$ | $\begin{aligned} & 45 \\ & 15 \end{aligned}$ | $\begin{aligned} & 0 \\ & 0 \end{aligned}$ | $\begin{aligned} & 2 \\ & 1 \end{aligned}$ |

TABLE F. 5 Percentages of full-time faculty belonging to various ethnic groups, by gender and type of department, in fall 2015. Except for round-off, the percentages within each departmental type sum to 100\%

## Mathematics Faculty Demographics: Race, Ethnicity \& Gender by Tenure Status

|  | Mexican <br> American/ |  |  |  |  |  |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: |
| Mathematics Departments | Asian <br> $\%$ | Black, not <br> Hispanic <br> $\%$ | Puerto Rican/ <br> other Hispanic <br> $\%$ | White, not <br> Hispanic <br> $\%$ |  <br> NHPI ${ }^{1}$ <br> $\%$ | Unknown <br> $\%$ |
| Tenured Men | 6 | 1 | 1 | 32 | 0 | 1 |
| Tenured Women | 2 | 0 | 0 | 9 | 0 | 0 |
| Tenure-eligible men | 2 | 0 | 0 | 7 | 0 | 0 |
| Tenure-eligible women | 1 | 0 | 0 | 4 | 0 | 0 |
| Postdoctoral men | 1 | 0 | 0 | 3 | 0 | 0 |
| Postdoctoral women | 0 | 0 | 0 | 1 | 0 | 0 |
| Full-time men not included above | 1 | 0 | 1 | 11 | 0 | 1 |
| Full-time women not included above | 1 | 0 | 0 | 10 | 0 | 0 |
| Total full-time men | 11 | 2 | 2 | 53 | 0 | 2 |
| Total full-time women | 4 | 1 | 1 | 24 | 0 | 1 |

TABLE S. 18 Percentage of gender and of racial/ethnic groups among all tenured, tenure-eligible, postdoctoral, and other full-time faculty in mathematics departments of four-year colleges and universities in fall 2015. This table can be compared to CBMS2010 Table S.19, p. 44.

# (Some) Implications of Underpresentation in STEM 

# Implications of Underrepresentation in STEM 

 Percent of students initially interested in STEM, and graduating in STEM, by racial group.

## Implications of Underrepresentation in STEM

Different rates of persistence in
academic disciplines by race and ethnicity

## Which one is "smart"?

Choose one:
smart

## Which one is "smart"?

Choose one:
smart

Phenotypic Stereotypicality and STEM Persistence (Williams et al, 2018)

- Different racial groups have different rates of STEM persistence
- Racial phenotypic stereotypicality is a factor in STEM persistence.
- Racial phenotypic stereotypicality negatively relates to STEM persistence among college students from under-represented minority groups.
- Gender was a more salient factor in AfricanAmericans than among Asian-Americans or White participants

## Summary

Summary

- "Who does the math" is important
- Underrepresentation of certain groups (by race and gender) in the mathematics community is significant and persistent
- Underrepresentation combines with stereotyping to produce negative impacts on certain groups
- Knowledge and vigilance can attempt to ameliorate these impacts
